

## Company Profile

Powerpoint International Ltd is a privately owned and independent company. We have been manufacturing and distributing high quality Laboratory equipment now for over 30 years.

We started to manufacture small scale food processing machines in 1994 and have built up an enviable reputation as a supplier to major food groups throughout the world, many who have returned for additional machines to locate at other R&D sites or to upgrade their existing machines to the latest technology.

We manufacture everything at our factory in Saitama, Japan using the latest technology and highly skilled staff.

Powerpoint International Ltd is at the forefront of manufacturing and introducing new technology into the laboratory or pilot plant "Miniature production lines for easy scale up"
