

Spray Dryer

Spray Dryer

Spray Dryer

- Rapid results from aqueous emulsions, solutions, suspensions, and colloids.
- Eliminates the drying problems and time associated with freeze-drying, rotary evaporation and ovens.
- Produces a wide distribution of particle sizes.
- All borosilicate glass for easy visual monitoring of process status.
- Easy to clean and very simple to assemble and breakdown.
- Small volumes required for initial results.
- Typical uses: Beverages, Flavours and Colourings, Milk and Egg Products, Pharmaceuticals, Plastics, Perfumes, Ceramics and Superconductors, etc.
